WELCOME TO APOLLO ACCOUNTING

Apollo Accounting was founded to provide modern, forward-thinking accounting support to individuals and businesses who want more than just compliance. We believe accounting should empower better decisions, reduce uncertainty, and give clients clarity and confidence over their financial position.

We work closely with business owners, directors, contractors, and growing enterprises to provide reliable, responsive, and proactive advice. We take the time to understand each client's circumstances, goals, and challenges so that our support is always relevant and tailored. Whether you are launching a new venture, scaling your business, or simply seeking peace of mind, we are here to guide you.

At Apollo Accounting, we combine technical expertise with a personal approach. We translate complex financial information into clear, practical insights, helping clients feel informed and in control. Our focus is on long-term relationships built on trust, transparency, and consistent delivery.

HOW WE WILL HELP YOU

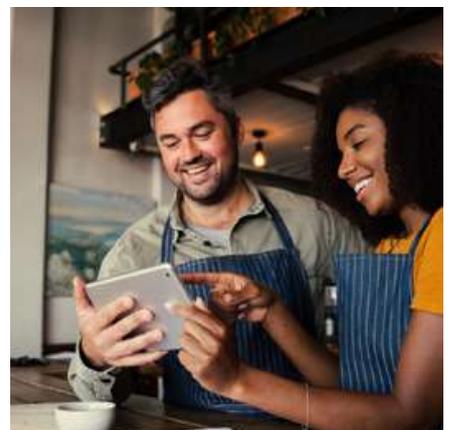

We work as an extension of your business, providing comprehensive accounting and advisory support that evolves as your needs change. From day-to-day bookkeeping, payroll, and compliance through to strategic planning and growth support, our role is to remove the burden of financial administration and give you the confidence that your finances are being managed properly. This allows you to spend more time focusing on running and growing your business, rather than being distracted by numbers and deadlines.

Our services are designed to be proactive rather than reactive. We don't simply report on what has already happened; we help you look ahead. By understanding your goals, we can identify opportunities to improve profitability, manage cash flow more effectively, and plan for tax efficiency.

To provide you with a complete service, Apollo works closely with financial advisers, solicitors, lenders, and other specialists, to ensure your financial affairs are aligned and working efficiently together. This joined-up approach reduces duplication, avoids gaps in advice, and creates clarity across all areas of your finances. By coordinating with the right professionals at the right time, we help support better outcomes for both you and your business.

We offer a full range of services designed to support businesses at every stage of their journey. Our core services include annual accounts preparation, tax compliance, and management accounts, giving you a clear and accurate view of your financial position throughout the year.

We also provide payroll services, bookkeeping, and VAT support to ensure your day-to-day financial operations run smoothly and remain fully compliant. For new and growing businesses, we offer dedicated company start-up support, helping you establish strong financial foundations from day one.

WHAT WE CAN HELP YOU WITH

Annual Accounting

Your annual accounts are more than just a legal requirement, they're a snapshot of your business's health and a tool for making informed decisions. We go beyond producing figures. We provide clarity, insights, and strategic recommendations that help you plan for the year ahead.

Tax Compliance

We ensure your business meets all statutory obligations accurately and on time. From corporation tax to personal tax matters, we provide meticulous attention to detail, reducing the risk of errors, penalties, or audits. With proactive guidance and expert support, we help you maintain full compliance while optimising your tax position, so you can focus on growing your business with confidence.

Payroll

Managing payroll can be complex, time-consuming, and full of regulatory requirements. From PAYE calculations to statutory deductions, we handle every detail with precision, giving you peace of mind and freeing you to focus on growing your business. Our proactive approach ensures deadlines are met, reports are accurate, and your payroll processes run smoothly.

Bookkeeping

Effective bookkeeping is the foundation of every successful business. By maintaining precise records of income, expenses, and transactions, we help you gain clear insight into your business performance, streamline reporting, and simplify compliance with HMRC requirements. Whether you operate a start-up or an established company, our meticulous approach allows you to focus on growth while we take care of the numbers.

VAT

VAT can be one of the most complex areas of business tax. With frequent rule changes, multiple schemes, and strict HMRC deadlines, it's easy to make costly mistakes. We take the stress out of managing the process for you, ensuring accuracy, compliance, and efficiency at every step.

Company Start-Ups

From company formation to tax planning and compliance setup, we ensure your new business is structured correctly and positioned for success. With our advice and practical support, you can focus on building your business while we handle the complex financial and administrative details.

Management Accounts

Effective decision-making starts with clear and timely financial insight. By converting raw financial data into actionable insights, we help business owners and managers understand trends, identify opportunities, and make strategic decisions. Whether you need monthly, quarterly, or ad-hoc reporting, our proactive approach ensures your accounts are accurate, up-to-date, and tailored to your business needs.

WHY CHOOSE US

Clients choose Apollo because we combine technical expertise with a personal, relationship-led approach. We take the time to understand your goals, challenges, and ambitions, allowing us to deliver advice that is relevant, practical, and aligned with where you want to go.

We pride ourselves on being approachable, accessible, and easy to work with. Our clients know they can pick up the phone or send an email and receive a prompt, clear response from someone who knows their business.

We believe good accounting advice should be easy to understand, which is why we explain complex matters in plain English and focus on practical solutions rather than jargon. This open and supportive approach helps build long-term relationships based on trust and transparency.

Our proactive mindset is a key differentiator. We don't wait until year-end to identify issues or opportunities. Instead, we work with you throughout the year, keeping an eye on cash flow, tax efficiency, and performance trends. By regularly reviewing your numbers and staying ahead of regulatory changes, tax updates, and industry developments, we help you plan with confidence and avoid unnecessary surprises.

Above all, our focus is on adding genuine value. Whether you are a start-up, a growing business, or an established company, our aim is to support your success by providing clarity, confidence, and peace of mind. With Apollo Accounting, you gain a partner who is invested in your business and committed to helping you move forward with certainty.

**OUR AIM IS TO DELIVER
PERSONALISED SUPPORT
THAT CLOSELY REFLECTS
YOUR FINANCIAL GOALS
AND PRIORITIES.**

WORKING WITH OUR PARTNERS

We believe the best outcomes are achieved through collaboration. Apollo works closely with a trusted network of professional partners, including financial advisers and solicitors, to ensure our clients receive comprehensive, well-rounded support.

These relationships allow us to go beyond traditional accounting and provide joined-up solutions that address both financial and strategic needs.

By collaborating with carefully selected partners, we are able to introduce clients to specialist expertise where required, whether that be in areas such as wealth planning, corporate finance, tax structuring, legal matters, or business funding.

Ultimately, our strong professional relationships enhance the service we provide. By combining our accounting expertise with the skills of trusted partners, we are able to deliver a more complete, forward-thinking solution that supports your business today and helps you plan confidently for the future.

A Complete Approach to Your Finances

We know that successful financial management is about more than just keeping your books in order and filing your tax returns. True financial security comes from having a joined-up, tax-efficient approach, where your day-to-day accounting, tax planning, and long-term wealth strategy work seamlessly together.

Protecting your legacy with expert guidance

Estate planning is about more than deciding who inherits your assets. It's about ensuring your wishes are honoured, your loved ones are provided for, and your estate is passed on in the most efficient way possible. Together, we help you safeguard your wealth and create a lasting legacy.

READY TO TRANSFORM YOUR FINANCES?

Take the first step towards clearer compliance, smarter growth, and complete confidence by connecting with our expert team.
